DIY Directions • Storage & Handling:

SHAKE WELL! *The mixed product should be agitated prior to and during application.*

Turfgrass:

Apply at a rate of 12-18 ounces per 1,000 sq. ft. every 4-8 weeks.

- Recommended Dilution Rate: Mix with water at a minimum 20:1 dilution.
- Minimum Dilution Rate: Mix with water at a minimum 7:1 dilution.

Apply directly to turf.

For additional **GreenePunch™** application rates and instructions related to *Turf Type, Season, Spray Equipment, applying with N-Ext™ specialty products, pesticides, watering-in, etc.* please visit greencountyfert.com/diy/.

Storage: Store in a cool dry place away from direct sunlight. Product will store for 2 years under warehouse conditions.

Apply in accordance with best management practices (BMP's) established by your Cooperative Extension Service. Observe any State or Local fertilizer application regulations.

Caution: This product contains the secondary micronutrient iron. Iron may stain concrete, wood and other pervious and impervious surfaces. **Apply** only to turf.

Keep out of Reach of Children: If product comes in contact with skin or eyes, flush with water immediately.

PRODUCT DESCRIPTION

18-0-1 GreenePunch™ Lawn Fertilizer is the Nitrogen foundation product of the N-Ext™ Full Liquid Fertility Program. Recommended application rates of **18-0-1 GreenePunch™** vary depending on turf types.

- The **18-0-1 18-0-1 GreenePunch™ Lawn Fertilizer** is engineered to be a complete product for all varieties of turfgrass. It is formulated to produce a quick green-up response and maintain consistent color for 6-8 weeks.
- **18-0-1 GreenePunch™** will produce a strong root mass which will grow deeply into the soil. It will stimulate soil activity necessary for building sustainable fertility.
- For DIY use, **18-0-1 GreenePunch™ Lawn Fertilizer** is the recommended Nitrogen product for every lawn application. **18-0-1** is not recommended for non-irrigated lawns during periods of drought stress.
