DIY Directions • Storage & Handling:

SHAKE WELL! *The mixed product should be agitated prior to and during application.*

Warm Season Turf: Apply at a rate of 16 ounces per 1,000 sq. ft.
Mix with water at a minimum 10:1 dilution. Apply directly to foliage.

Cool Season Turf: Apply at a rate of 20 ounces per 1,000 sq. ft. Mix
with water at a minimum 10:1 dilution. Apply directly to foliage.

For specific application instructions related to Turf Type,
Season, Spray Equipment, *applying with N-Ext™ specialty
products, pesticides, watering-in, etc.* please visit
www.greenecountyfert.com/diy/

Storage: Store in a cool dry place away from direct sunlight.
Product will store for 2 years under warehouse conditions.

Apply in accordance with best management practices (BMP's)
established by your Cooperative Extension Service. Observe any
State or Local fertilizer application regulations.

Caution: This product contains the secondary micronutrient
iron. Iron may stain concrete, wood and other pervious and im-
pervious surfaces. **Apply only** to turf and soil.

Keep out of Reach of Children: If product comes in contact with
skin or eyes, flush with water immediately.

26-0-0 GreeneCharge™ Enhanced Efficiency Controlled-Release Liquid Nitrogen Plus Micronutrients is an all-purpose
workhorse for all turf types. The proprietary controlled release nitrogen formula is coupled with minor elements,
iron, sulfur, magnesium, manganese, and copper as well as non-plant food ingredients; humic acid derived from
leonardite and cold water kelp.

GreeneCharge™ will fit into any lawn care program and provide a long lasting green color and micronutrient sup-
plement for up to 8 weeks. The combination of nutrients in **GreeneCharge™** will give you the color and results you
would expect from a high-performance fertilizer. Product is safe to use on all turf types.

PACKAGING: 1.0-gal bottle and 2.5-gal bottle
