Directions For Use

SHAKE WELL! *The mixed product should be agitated prior to and during application.*

Lawns: Apply at a maximum rate of 5 gallons per acre (15 ounces per 1,000 sq.ft.) at an interval of 4 weeks as needed throughout the growing season. Dilute with enough water to cover 1 acre. Do not apply at less than a 7:1 dilution. Apply to all turf types at an interval of 4-8 wks. Recommended annual rate of 6-12 lbs. N per acre.

Greens & Tees: Apply at a rate of 1 gallon per acre weekly or 2 gallons every two weeks.

Storage: Store in a cool dry place away from sunlight. Product will store for 2 years in normal warehouse conditions.

Compatibility: These concentrated materials are compatible with most fertilizers and chemicals but should not be mixed directly with other chemicals. Conduct a jar test as needed to ensure compatibility before tank mixing. Mix in spray tanks with water and proper agitation. Apply in accordance with best management practices (BMP's) established by your Cooperative Extension Service. Observe any State or Local fertilizer application regulations. Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden, and sweep any product that lands on the driveway, sidewalk, or street back onto your lawn/garden. **Caution:** This product contains the secondary micronutrient iron. Iron may stain concrete, wood and other pervious and impervious surfaces. **Apply only** to turf, plants, and soil. If plants are flowering, apply to base of the plant to avoid staining of blooms. **Keep out of reach of children.** If product comes in contact with skin or eyes flush with water immediately.
