## Pro Directions • Handling & Storage

**SHAKE WELL!** *The mixed product should be agitated prior to and during application.*

**Warm Season Turf:** Apply at a rate of 16 ounces per 1,000 sq. ft. Mix with water at a minimum 7:1 dilution. Apply directly to foliage.

**Cool Season Turf:** Apply at a rate of 20 ounces per 1,000 sq. ft. Mix with water at a minimum 7:1 dilution. Apply directly to foliage.

**Storage:** Store in a cool dry place away from direct sunlight. Product will store for 2 years under warehouse conditions. Apply in accordance with best management practices (BMP's) established by your Cooperative Extension Service. Observe any State or Local fertilizer application regulations. **Caution:** This product contains the secondary micronutrient iron. Iron may stain concrete, wood and other pervious and impervious surfaces. **Apply only** to turf, plants, and soil. If plants are flowering, apply to base of the plant to avoid staining of blooms. **Keep out of Reach of Children:** If product comes in contact with skin or eyes, flush with water immediately.

## PRODUCT DESCRIPTION

**18-0-1 GreenePunch™ Lawn Fertilizer** is engineered to be a complete product for all varieties of turfgrass. It is formulated to produce a quick green-up response and maintain consistent color for 6-8 weeks.

- **18-0-1 GreenePunch™** will produce a strong root mass which will grow deeply into the soil.
- It will stimulate soil activity necessary for building sustainable fertility.

Consult your Account Representative for application recommendations specific to your growing zone.

## APPLICATION RECOMMENDATIONS

- For cool season grass varieties, it is the recommended product for every lawn application.
- For warm season grass varieties, it is the recommended product for applications during the cooler months.
- **18-0-1** is not recommended for non-irrigated lawns during periods of drought stress.

### PACKAGING:

2.5 gal bottle, 5 gal bucket, 275 gal IBC tote
