PRODUCT DESCRIPTION

4-0-2 FloraGreen[™] Fertilizer is engineered to be a complete product for all varieties of landscape plants, ornamentals, tropicals, shrubs, and trees.

APPLICATION RECOMMENDATIONS

While soil application is acceptable, **4-0-2** is formulated for foliar application.

- **4-0-2 FloraGreen[™]** will absorb through leaf, stem, and cambium tissue and be distributed to the roots through the circulatory systems of plants, ornamentals, shrubs, and trees.
- Application rates of **4-0-2** are very low.
- There is no risk of tissue burn.

PACKAGING:

2.5 gal bottle, 5 gal bucket, 275 gal IBC tote

Consult your Account Representative for application recommendations specific to your growing zone.

Always read and follow label directions.

Pro Directions • Handling & Storage

SHAKE WELL! *The mixed product should be agitated prior to and during application.*

Do not apply to foliage if temperatures are above 80° F or below 40° F.

Healthy Trees: Apply at a rate of 1/2 ounce per caliper inch of the diameter at shoulder height. Dilute with water at a rate of 6 ounces per gallon. Spray the trunk of the tree up to a height of 6 feet or to the first fork. Apply two times per year in the spring and fall.

Sick or Diseased Trees: Apply at a rate of 1 ounce per caliper inch of diameter at shoulder height. Dilute at a rate of 6 ounces per gallon of water. Spray the trunk of the tree up to the height of 6 feet or to the first fork. Apply every 30 days as needed.

Fruit Trees: Apply at 1/2 ounce per caliper inch of the diameter at shoulder height before fruit sets. Dilute at 6 ounces per gallon of water. Spray trunk to a height of 6 feet or to the first fork. No application after fruit sets.

Plants and Ornamentals: Apply at a rate of 6 ounces per 1,000 sq. ft. of bedding material. Dilute at a rate of 6 ounces per gallon of water; apply as a mist to foliage or as a soil drench at the base of the plant. Avoid direct contact with flower blooms to prevent staining.

Palms: Apply at a rate of 1 ounce per caliper inch of diameter at shoulder height. Dilute at a rate of 6 ounces per gallon of water. Apply as a soil drench at the base of the palm.

Potted Plants and Vegetables: Dilute at 1 ounce per gallon of water and apply weekly as a light soaking to the base of the plant. Avoid direct contact with flower blooms to prevent staining.

Storage: Store in a cool dry place away from direct sunlight. Product will store for 2 years under warehouse conditions. **Apply** in accordance with best management practices (BMP's) established by your Cooperative Extension Service. Observe any State or Local fertilizer application regulations. **Caution:** This product contains the secondary micronutrient iron. Iron may stain concrete, wood and other pervious and impervious surfaces. **Apply only** to turf, plants, and soil. If plants are flowering, apply to base of the plant to avoid staining of blooms. **Keep out of Reach of Children:** If product comes in contact with skin or eyes, flush with water immediately.
