## Multipurpose Fertilizer

### GUARANTEED ANALYSIS

Total Nitrogen (N).....9.0%  
7.4% Urea Nitrogen\*  
0.8% Ammoniacal Nitrogen  
0.8% Nitrate Nitrogen  
Soluble Potash (K<sub>2</sub>O).....1.0%  
Sulfur (S).....1.0%  
Iron (Fe).....1.5%

Derived from: Urea, Ammonium Nitrate,  
Sulfate of Potash, Ferrous Sulfate, Ascophyllum  
Nodosum

\*4.5% urea nitrogen stabilized with N-(n-butyl)  
thiophosphoric triamide

ALSO CONTAINS NON-PLANT FOOD

INGREDIENT(S):

1.5% Humic Acids (Derived from Leonardite)  
1.0% Kelp (Microbe food)

Purpose Statement:

May increase micronutrient uptake.  
May increase microbe food.

### PRODUCT DESCRIPTION

**9-0-1 GreeneStart™ Multipurpose Fertilizer** is engineered to be a complete product for seeding and drought-stressed lawn situations. It is formulated to provide excellent germination rates of seeds and quick rooting of new turf seedlings. It is also a good reduced-nutrition input fertility option for lawns suffering from drought stress.

PACKAGING:

2.5 gal bottle, 5 gal bucket, 275 gal IBC tote

### Directions • Handling & Storage

**SHAKE WELL!** *The mixed product should be agitated prior to and during application.*

**Seeding/Over-seeding:** Apply at a rate of 16 ounces per 1,000 sq. ft. Mix with water at a minimum 7:1 dilution. Apply as a broadcast application over area being seeded.

**Warm Season Turf:** Apply at a rate of 16 ounces per 1,000 sq. ft. Mix with water at a minimum 7:1 dilution. Apply directly to foliage.

**Cool Season Turf:** Apply at a rate of 16-20 ounces per 1,000 sq. ft. Mix with water at a minimum 7:1 dilution. Apply directly to foliage.

**Plants and Trees (Soil, Non-foliar):** Apply at a rate of 8 ounces per 1,000 sq. ft. Or mix with water in a can at 2 ounces per gallon and feed monthly.

**Storage:** Store in a cool dry place away from direct sunlight. Product will store for 2 years under warehouse conditions. Apply in accordance with best management practices (BMP's) established by your Cooperative Extension Service. Observe any State or Local fertilizer application regulations. **Caution:** This product contains the secondary micronutrient iron. Iron may stain concrete, wood and other pervious and impervious surfaces. **Apply only** to turf, plants, and soil. If plants are flowering, apply to base of the plant to avoid staining of blooms. **Keep out of Reach of Children:** If product comes in contact with skin or eyes, flush with water immediately.

### APPLICATION RECOMMENDATIONS

**9-0-1 GreeneStart™** is formulated to facilitate rapid seed germination without risk of burning the seeds. It is the best product available for both re-seeding and over-seeding all types of turfgrass.

**9-0-1, as a component of a fertility program,** 9-0-1 will significantly increase root mass and depth (drought resistance). It will stimulate considerable soil activity which will substantially improve soil fertility.

- For cool season grass varieties, it is a recommended product for non-irrigated lawns during periods of drought stress.
- For warm season grass varieties, it is a recommended product for lawns where poor soil fertility is inhibiting plant health and nutrient uptake.
- 9-0-1 is recommended for soil (non-foliar) applications on established plants, shrubs and trees.
