**Ornamental/Bedding Plants:** Apply at a rate of 1 to 2 ounces per 1,000 sq. ft. with a minimum of 1 gallon of water per 1,000 sq. ft. per ounce applied.

**Planting:** Apply as a soil drench at a rate of 1 pint per 250 gallons of water.

## GENERAL INFORMATION

Hydr8 Pro Liquicure™ improves the infiltration and penetration of applied irrigation water in agricultural crops, ornamental plants and managed turf. It is formulated to minimize repellency of hydrophobic soils, enhance adhesive tension, and relieve cohesive tension in water. Applications can be made via commercial tank sprayers, ride-on spreader/sprayers, hose end and pump sprayers, and most irrigation systems.

STORAGE AND DISPOSAL: Store in a safe manner. Store in original labeled container only in a cool place away from direct sunlight. Keep tightly sealed when not in use. Keep in a secure and locked storage area. Do not add water to the contents of this container. Triple rinse container, empty rinse water into spray or stock tank. Store product and dispose of unused product and empty containers in accordance with federal, state and local regulations. Precautionary statements: Wash thoroughly after handling. Wear rubber or chemical-resistant gloves. Wear eye protection. In all cases, call a poison control center or doctor for further treatment advise.
