Information regarding the contents and levels of metals in this product is available on the internet at <http://aapfco.org/metals.html>.

GreenePOP™ is intended to be used as a starter fertilizer for newly seeded or sodded turf.

GreenePOP™ can also be used as a phosphorus amending product. **GreenePOP™** contains 2.31 lbs of phosphorus per gallon. Soil test for phosphorus deficiency prior to use.

Storage: Store in a cool dry place away from direct sunlight. Product will store for 2 years under warehouse conditions. Protect from freezing. Apply in accordance with best management practices (BMP's) established by your Cooperative Extension Service. Observe any State or Local fertilizer application regulations. Caution: Apply only to turf and soil. Keep out of Reach of Children.

PRO DIRECTIONS

SHAKE WELL! *The mixed product should be agitated prior to and during application.*

Warm Season Turf: Apply at a rate of 15 ounces per 1,000 sq. ft. Mix with water at a minimum 7:1 dilution. Apply directly to foliage or to soil at seeding.

Cool Season Turf: Apply at a rate of 15 ounces per 1,000 sq. ft. Mix with water at a minimum 7:1 dilution. Apply directly to foliage or to soil at seeding.

PRODUCT DESCRIPTION

GreenePOP™ Starter Fertilizer is engineered to deliver all that grass seed needs to get growing quickly and start its life on the right footing. The combination of nitrogen, phosphorus, and potassium, Humic Acids and sea kelp delivered by **GreenePOP™** will prepare the soil around the seed for quick germination as well as feed the newly rooting turf.

- **GreenePOP™** can also be used for Phosphorus deficient soils or used in a balanced fertility program on all turf types.
- **GreenePOP™** can be applied directly on top of seeds at time of planting, applied pre-plant, or incorporated with a topdressing medium.

PACKAGING: 2.5 gal bottle, 5 gal bucket, 275 gal IBC tote
