Derived from Urea, Sulfate of Potash, Ferrous Sulfate, Ascophyllum Nodosum
 *2.5% urea nitrogen stabilized with N-(n-butyl) thiophosphoric triamide

ALSO CONTAINS NON-PLANT FOOD
 INGREDIENTS:

3.0% Humic Acids (Derived from Leonardite)
 2.0% Kelp (Microbe food)

Purpose Statement:

May increase micronutrient uptake.
 May increase microbe food.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>.

PRO DIRECTIONS

SHAKE WELL! *The mixed product should be agitated prior to and during application.*

Lawns: Apply at a maximum rate of 5 gallons per acre (15 ounces per 1,000 sq.ft.) at an interval of 4 weeks as needed throughout the growing season. Dilute with enough water to cover 1 acre. Do not apply at less than a 7:1 dilution. Apply to all turf types at an interval of 4-8 wks. Recommended annual rate of 6-12 lbs N per acre.

Greens & Tees: Apply at a rate of 1 gallon per acre weekly or 2 gallons every two weeks.

Storage: Store in a cool dry place away from direct sunlight. Protect from freezing. Product will store for 2 years under warehouse conditions. Apply in accordance with best management practices (BMP's) established by your Co-operative Extension Service. Observe any State or Local fertilizer application regulations. **Caution:** This product contains the secondary micronutrient iron. Iron may stain concrete, wood and other pervious and impervious surfaces. Apply only to turf, plants, and soil. If plants are flowering, apply to base of the plant to avoid staining of blooms. Keep out of Reach of Children.

PACKAGING: 2.5 gal bottle, 5 gal bucket, 275 gal IBC tote

PRODUCT DESCRIPTION

5-0-1 ProGreene™ Pro Turf Fertilizer is engineered to be a complete fertilizer for all varieties of turf grass and certain plant, shrub, and tree situations.

- **5-0-1 ProGreene™** is formulated to provide consistent color during periods when the soil is the most active; it will significantly increase root mass and depth therefore drought resistance.
- **5-0-1 ProGreene™** will stimulate soil microbial activity thus improving soil fertility.

- On cool season turf, it provides a margin of safety on non-irrigated lawns during periods of drought stress.
- On warm season turf, it is safe for feeding applications during warmer months or for lawns where there is clearly a need for soil re-mediation.
- **5-0-1 ProGreene™** can also be used for soil (non-foliar) applications on trees and shrubs.
