DITHIOPYR 2 EW

RIGHTLINE DITHIOPYR 2 EW is a Pre-emergent and Early Post-emergent herbicide for control of crabgrass. Provides Pre-Emergent control of many annual grasses and broadleaf weeds.

Dithiopyr 2 EW herbicide provides Pre-emergent and early Post-emergent control of crabgrass up to 5 leaf stage. Provides Pre-Emergent control of grassy and broadleaf weeds such as crabgrass, dallisgrass, foxtail, sandbur, dandelion, oxalis, spurge, and many other annual grasses and broadleaf weeds in established lawns, commercial sod farms, sports turf, golf course fairways, roughs, tee boxes, unimproved turfgrass areas, container grown ornamentals, field-grown ornamentals, and landscape ornamentals.

- Use on a wide range of cool and warm-season turfgrass species
- 2 lb/ A.I Formulation
- Low odor
- Non-Staining
- Allows for an extended application window
- Effective for more than 45 grassy and small-seeded broadleaf weeds.
- Most effective when applied before germination and activated by at least 1/2 inch of rain or irrigation
- May be applied as an over-the-top application to certain ornamental field and container-grown landscape and nursery ornamentals.
- Packaged in 2 x 2.5 gallon and 30 gallon containers

Application Rate (Pints/ Acre*)	Application Rate (oz./1,000 sq. ft.*)
1.0- 2.0	0.365 - 0.730

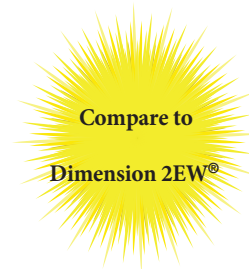

*See label for specific rates and timing
