PRODUCT DESCRIPTION

The **N-Ext BufferUp™ Tank Conditioner Raising pH** product is designed to address an often overlooked yet vitally important aspect of weed control.

Some weed and pest control products contain active ingredients that are most effective at specific pH ranges. In some cases, final spray solutions are outside of the manufacturers recommended pH range and can cause the active ingredients to have a less than expected result.

By measuring and adjusting pH in the final spray solution, chemicals have the opportunity to perform as they were intended.

APPLICATION RECOMMENDATIONS

Product is intended to be used as an additive to current fertilizer program.

Small amounts of this products will have a dramatic change on the pH of your final solution as well as reduce the need for additional adjuvants.

Consult your Account Representative for application recommendations specific to your growing zone.

Always read and follow label directions.

PRO DIRECTIONS

SHAKE WELL! *The mixed product should be agitated prior to and during application.*

Tank Mixing: Add enough **N-Ext BufferUp™** in your tank mix to achieve the desired pH of your dilution.

Mixing with Fertilizers: **N-Ext BufferUp™** can be mixed with liquid fertilizers. **Apply in this order:** 1) Water, 2) **N-Ext BufferUp™**, 3) Water Soluble or Liquid Fertilizer.

Mixing with Pesticide, Herbicide or Fungicide: **N-Ext BufferUp™** can be mixed with pesticides, herbicides and fungicides and applied. **We recommend the following:** Use the product within 24 hours of mixing products (especially with fungicides). Do not over-apply pesticides, herbicides or fungicides as they can have an adverse effect on the populations of soil organisms.

Store in a cool dry place away from direct sunlight. Product will store for 2 years under warehouse conditions. Apply in accordance with best management practices (BMP's) established by your Cooperative Extension Service. Observe any State or Local fertilizer application regulations. Caution: Apply only to turf, plants, and soil. If plants are flowering, apply to base of the plant to avoid staining of blooms. This product may stain concrete, wood and other pervious and impervious surfaces. Keep out of Reach of Children: If product comes in contact with skin or eyes, flush with water immediately.

PACKAGING:

2.5 gal bottle, 5 gal bucket, 275 gal IBC tote
