# Multipurpose Fertilizer

## GUARANTEED ANALYSIS

Total Nitrogen (N).....9.0%  
 7.4% Urea Nitrogen\*  
 0.8% Ammoniacal Nitrogen  
 0.8% Nitrate Nitrogen  
 Soluble Potash (K<sub>2</sub>O).....1.0%  
 Sulfur (S).....1.0%  
 Iron (Fe).....1.5%

Derived from: Urea, Ammonium Nitrate, Sulfate of Potash, Ferrous Sulfate

\*4.5% urea nitrogen stabilized with N-(n-butyl) thiophosphoric triamide

ALSO CONTAINS NON-PLANT FOOD INGREDIENT(S):

Soil Amending Ingredients - 2.5%  
 1.5% Humic Acids (Derived from Leonardite)  
 1.0% Kelp (Microbe food)

Total Other Ingredients - 97.5%

Purpose Statement:

May increase micronutrient uptake.  
 May increase microbe food.

## PRODUCT DESCRIPTION

**9-0-1 GreeneStart™ Multipurpose Fertilizer** is engineered to be a complete product for seeding and drought-stressed lawn situations. It is formulated to provide excellent germination rates of seeds and quick rooting of new turf seedlings. It is also a good reduced-nutrition input fertility option for lawns suffering from drought stress.

PACKAGING:

2.5 gal bottle, 5 gal bucket, 275 gal IBC tote

Manufactured and Guaranteed by  
 Greene County Fertilizer Company, Inc.  
 PO Box 1346 • Greensboro, GA 30642  
 1-855-606-3378 • [www.greencountyfert.com](http://www.greencountyfert.com)

## PRO DIRECTIONS

**SHAKE WELL!** *The mixed product should be agitated prior to and during application.*

**Seeding/Over-seeding:** Apply at a rate of 16 ounces per 1,000 sq. ft. Mix with water at a minimum 7:1 dilution. Apply as a broadcast application over area being seeded.

**Warm Season Turf:** Apply at a rate of 16 ounces per 1,000 sq. ft. Mix with water at a minimum 7:1 dilution. Apply directly to foliage.

**Cool Season Turf:** Apply at a rate of 16-20 ounces per 1,000 sq. ft. Mix with water at a minimum 7:1 dilution. Apply directly to foliage.

**Plants and Trees (Soil, Non-foliar):** Apply at a rate of 8 ounces per 1,000 sq. ft. Or mix with water in a can at 2 ounces per gallon and feed monthly.

**Storage:** Store in a cool dry place away from direct sunlight. Protect from freezing. Product will store for 2 years under warehouse conditions. Apply in accordance with best management practices (BMP's) established by your Cooperative Extension Service. Observe any State or Local fertilizer application regulations. Caution: This product contains the secondary micronutrient iron. Iron may stain concrete, wood and other pervious and impervious surfaces. Apply only to turf, plants, and soil. If plants are flowering, apply to base of the plant to avoid staining of blooms. Keep out of Reach of Children.

## APPLICATION RECOMMENDATIONS

**9-0-1 GreeneStart™** is formulated to facilitate rapid seed germination without risk of burning the seeds. It is the best product available for both re-seeding and over-seeding all types of turfgrass.

**9-0-1**, as a component of a fertility program, 9-0-1 will significantly increase root mass and depth (drought resistance). It will stimulate considerable soil activity which will substantially improve soil fertility.

- For cool season grass varieties, it is a recommended product for non-irrigated lawns during periods of drought stress.
- For warm season grass varieties, it is a recommended product for lawns where poor soil fertility is inhibiting plant health and nutrient uptake.
- 9-0-1 is recommended for soil (non-foliar) applications on established plants, shrubs and trees.
