16-21-2 GreenePOP™ Starter Fertilizer

Seed
Starter

Root
Stimulating

Strong
Growth

PRODUCT DESCRIPTION: GreenePOP™ is engineered to deliver all that grass seed needs to get growing quickly and start it's life on the right footing. The combination of nitrogen, phosphorus, and potassium Humic, Fulvic acid and sea kelp delivered with GreenePOP™ will feed the newly rooting turf as well as prepare the soil around the seed for quicker germination. GreenePOP™ can also be used for Phosphorus deficient soils or used in a balanced fertility program on all turf types. 16-21-2 GreenePOP™ can be applied directly on top of seeds at time of planting, applied pre-plant, or incorporated with a topdressing medium.

- GreenePOP™ is intended to be used as a starter fertilizer for newly seeded or sodded turf.
- GreenePOP™ can also be used as a phosphorus amending product. GreenePOP™ contains 2.31 lbs of phosphorus per gallon. Soil test for phosphorus deficiency prior to use.
