DIRECTIONS FOR USE

SHAKE WELL!

TURF GRASS: Apply at a rate of 6-9 ounces per 1,000 sq. ft. with 1 gallon of water.

Backpack/Pump Sprayer:

Applying Weekly: Mix 6 oz N-Ext D-Thatch per 1 gallon of water.

Applying Bi-Weekly: Mix 9 oz N-Ext D-Thatch per 1 gallon of water.

NOTE: Water lawn for 5 minutes after application for best results.

Hose End Sprayer:

- Set to 2oz if moving slowly through the lawn
- Set to 4oz if moving quickly through the lawn

Product can be applied as often as every three weeks during the growing season depending on thatch layer thickness.

Product is safe for use on all turf types and ornamental plants. Product is intended to be used as an additive to current fertilizer program.

GUARANTEED ANALYSIS

SOLUBLE POTASH (K₂O).....2.0%

Derived from: Potassium Hydroxide

ALSO CONTAINS NON-PLANT FOOD INGREDIENT(S):

4.0% Humic Acids (Derived from Leonardite)

2.0% Fulvic Acid

1.1% Cane Sugar

2.0% Yeast blends

Purpose Statement:

Adds humic acid to the soil.

May increase micronutrient uptake.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>

Storage: Store in a cool dry place away from direct sunlight. Product will store for 2 years under warehouse conditions. Protect from freezing. **Apply** only to turf, plants, and soil.

Always read and follow label directions.

N-Ext D-Thatch™ Thatch Digester is designed to reduce thatch build up in lawns that do not have the ability to be mechanically adjusted due to cultivar or time of season.

N-Ext D-Thatch™ focuses on composting thatch faster by encouraging microbial activity at the soil surface and increasing heat. This exothermic release by increased soil activity will breakdown thatch from the soil level up. Thatch is quickly reduced and the organic matter is captured as a food source for your turf.
