The Supercharged Kelp-Infused Micronutrient Solution

PRO DIRECTIONS

SHAKE WELL! The mixed product should be agitated prior to and during application.

Trees/Shrubs: Apply at a rate of 4-8 ounces per 1,000 sq. ft. Mix with water at a minimum 7:1 dilution. Apply directly to foliage.

Tropicals/Ornamentals: Apply at a rate of 4-8 ounces per 1,000 sq. ft. Mix with water at a minimum 7:1 dilution. Avoid direct contact with flower blooms to prevent staining.

Lawns (black-out compliant): Apply at a rate of 1-2 gallons per acre (3-6 ounces per 1,000 sq. ft.) for increased micronutrient uptake and oil condition. Minimum dilution 7:1 with water.

Storage: Store in a cool dry place away from direct sunlight. Product will store for 2 years under warehouse conditions. Protect from freezing. Caution: Apply only to turf, plants, and soil. If plants are flowering, apply to base of the plant to avoid staining of blooms. Keep out of reach of children.

Always read and follow label directions.
