thiophosphoric triamide

Information regarding the contents and levels of
metals in this product is available on the internet
at <http://www.aapfco.org/metals.html>.

26-0-0 GreeneCharge™ is an all-purpose
workhorse for all turf types. The propri-
etary controlled release nitrogen formu-
la is coupled with minor elements, iron,
sulfur, magnesium, manganese, and
copper as well as non-plant food ingre-
dients; humic acid derived from leonard-
ite and cold water kelp.

GreeneCharge™ will fit into any lawn
care program and provide a long lasting
green color and micronutrient supple-
ment for up to 8 weeks. The combina-
tion of nutrients in GreeneCharge™ will
give your turf the results you expect
from a high performance fertilizer and
color your customers will love. Product
is safe to use on all turf types.

PRO DIRECTIONS

SHAKE WELL! The mixed product should be agitated
prior to and during application.

Warm Season Turf:

Apply at a rate of 16 ounces per 1,000 sq. ft.
Mix with water at a minimum 7:1 dilution.
Apply directly to foliage.

Cool Season Turf:

Apply at a rate of 20 ounces per 1,000 sq. ft.
Mix with water at a minimum 7:1 dilution.
Apply directly to foliage.

Storage: Store in a cool dry place away from direct sunlight. Product will
store for 2 years under warehouse conditions. Protect from freezing.
Apply in accordance with best management practices (BMP's) established
by your Cooperative Extension Service. Observe any State or Local fertiliz-
er application regulations. Caution: Apply only to turf and soil.
Keep out of reach of children.

Always read and follow label directions.

26-0-0 GreeneCharge™

Whether you're pushing for color during peak
season or supporting turf through drought stress,
GreeneCharge brings the versatility, performance, and
efficiency to match your management strategy.
