

Multipurpose Fertilizer + Micronutrients + Biostimulants

PRODUCT DESCRIPTION

9-0-1 GreeneStart™ Multipurpose Fertilizer is engineered to be a complete product for seeding and drought-stressed lawn situations. It is formulated to provide excellent germination rates of seeds and quick rooting of new turf seedlings. It is also a good reduced-nutrition input fertility option for lawns suffering from drought stress.

APPLICATION RECOMMENDATIONS

9-0-1 GreeneStart™ is formulated to facilitate rapid seed germination without risk of burning the seeds. It is the best product available for both re-seeding and over-seeding all types of turfgrass.

9-0-1, as a component of a fertility program, will significantly increase root mass and depth (drought resistance). It will stimulate considerable soil activity which will substantially improve soil fertility. **For cool season grass varieties**, it is a recommended product for non-irrigated lawns during periods of drought stress. **For warm season grass varieties**, it is a recommended product for lawns where poor soil fertility is inhibiting plant health and nutrient uptake. 9-0-1 is recommended for soil (non-foliar) applications on established plants, shrubs and trees.

PRO DIRECTIONS

SHAKE WELL! The mixed product should be agitated prior to and during application.

Seeding/Over-seeding:

Apply at a rate of 16 ounces per 1,000 sq. ft. Mix with water at a minimum 7:1 dilution. Apply as a broadcast application over area being seeded.

Warm Season Turf:

Apply at a rate of 16 ounces per 1,000 sq. ft. Mix with water at a minimum 7:1 dilution. Apply directly to foliage.

Cool Season Turf:

Apply at a rate of 16-20 ounces per 1,000 sq. ft. Mix with water at a minimum 7:1 dilution. Apply directly to foliage.

Plants and Trees (Soil, Non-foliar):

Apply at a rate of 8 ounces per 1,000 sq. ft. Or mix with water in a can at 2 ounces per gallon and feed monthly.

GUARANTEED ANALYSIS

Total Nitrogen (N).....	9.0%
7.4% Urea Nitrogen*	
0.8% Ammoniacal Nitrogen	
0.8% Nitrate Nitrogen	
Soluble Potash (K ₂ O).....	1.0%
Sulfur (S).....	1.0%
Iron (Fe).....	1.5%

Derived from: Urea, Ammonium Nitrate, Sulfate of Potash, Ferrous Sulfate

*4.5% urea nitrogen stabilized with N-(n-butyl) thiophosphoric triamide

ALSO CONTAINS NON-PLANT FOOD INGREDIENT(S):

Soil Amending Ingredients - 2.5%
1.5% Humic Acids (Derived from Leonardite)
1.0% Kelp (Microbe food)

Total Other Ingredients - 97.5%

Purpose Statement:

May increase micronutrient uptake.
May increase microbe food.

Information regarding the contents and levels of metals in this product is available on the internet at <http://aapfco.org/metals.html>.

Storage: Store in a cool dry place away from direct sunlight. Protect from freezing. Product will store for 2 years under warehouse conditions. Caution Apply only to turf, plants, and soil. Keep out of reach of children.

Always read and follow label directions.
